

ROVAN ERP

Integrated Business Management Software

ROVAN ERP is a business management software for small and medium enterprises. It integrates your Purchase, Production, Inventory, Sales, HR and Finance operations. ROVAN ERP enables you to manage your resources better and to make correct decisions to achieve your business goal.

Up-to-date Information

You can get the complete information about the company from your desktop. With ROVAN ERP you can bring multiple locations of your company under single system.

Better Decisions

ROVAN ERP shows you the true state of operations in all departments and helps you make better decisions.

Affordable

ROVAN ERP is an affordable solution. It is easy to learn, easy to use and easy to administer. It can be modified to meet your business needs. It is backed with impeccable after sales support to make each installation a great success.

Technology

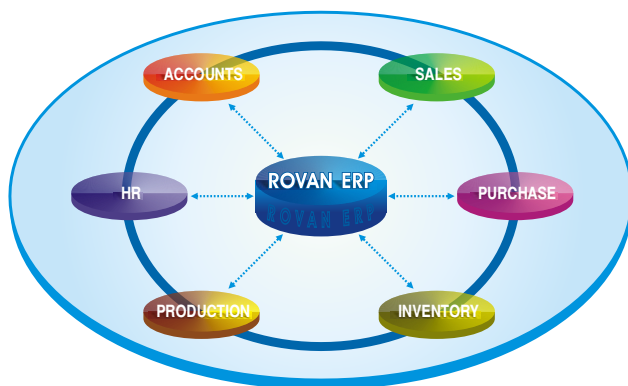

ROVAN ERP has been built as a web application. It uses Oracle and PHP. It is a multi user system and can be deployed as an intranet application in a network. With ROVAN ERP you can bring multiple locations of your company under single system.

Modules

ROVAN ERP integrates the activities of your company using 6 modules. They are Accounts, Sales, Purchase, Inventory, Production and HR. All modules are highly integrated to streamline the operations of the company. Data entered in one screen is available throughout the system. It minimises the data entry errors.

ROVAN ERP

Modules Integration
